

JMOR Tech Talk Show Uncovers Secrets of UX and (ML) Machine Learning

Catch our great guests coming up in the month of June and be sure to check our fully transcribed page of each show on our website.

New Jersey, Bergen, Jun 3, 2021 ([Issuewire.com](https://www.issuewire.com)) - The JMOR Tech Talk Show is a weekly Podcast and local TV Show in NJ that features guests from around the globe who are authors, thought leaders, and celebrities that visit with us to share their story that may change your life.

Our first guest of the month is Mr. Brian T. O'Neill on June 4, 2021. He is consulting product designer and founder of [Designing for Analytics](#) where he helps companies create innovative machine learning (ML) and analytics solutions. Over the years, O'Neill has worked alongside reputable companies like JP Morgan Chase, TripAdvisor and more. O'Neill also hosts the highly rated podcast show called Experiencing Data where he speaks with a wide variety of guests, asks insightful questions and delves deep into the humanistic side of data science. Through his seminars and free weekly mailing list, O'Neill focuses on the design and user experience of products and how to make your innovative data products appeal to customers and produce business value. In his free time, O'Neill is also a classical and jazz musician and a professional drummer.

The following guest on our show will be Dr. Michael Hutchinson on June 11, 2021. A US Army Special Forces Covert Combat Veteran and an alumni of the University of the Pacific, Dr. Hutchinson is now a medical services consultant at three different companies. At the Advocate Consulting Group (ACG), they offer the exclusive Exceptional Providers Program which is aimed at helping medical practices improve patient outcomes, increase practice revenue, reduce malpractice liability and increase macro compliance. ACG also offers pandemic relief programs and developed a COVID-19 Care Unit which comes equipped with testing, evaluation, and treatment facilities. Dr. Hutchinson is also a consultant for Pharmanex's Pharmacogenomic Cellular Anti-Aging Supplements which are based on learnings from leading genetic researchers and anti-aging specialists. We are excited to hear his unique insight and welcome him to the JMOR Tech Talk show.

Sheila Mac, author of *Boot Straps and Bra Straps: The Formula to Go from Rock Bottom Back into Action in Any Situation*, will be joining us again on June 18, 2021. Sheila Mac didn't start off as the successful author she is today and had major setbacks early on in her life. Her recent book, which was released last August, made it to the Amazon #1 bestsellers list and has reached a wide audience. In her book she introduces the BOOTS formula which helps struggling people move from rock bottom back into action. Sheila Mac is extremely passionate about helping people overcome tragedy whether she's teaching parenting and relationship courses or how to invest in real estate properties. Proud mother of 6 children, Mac also started her own podcast show soon to be a radio show.

Lastly, Andres Ruiz, a motivational speaker and coach at I Believe in Myself will join the show on June 25, 2021. Ruiz shares motivational videos on social media on topics like self doubt, self confidence and being afraid of change. Ruiz was even featured on a TED Talk in Los Gatos High School. He targets younger audiences and sheds awareness on mental health, drugs and alcohol and gives people the confidence to reach their goals and dreams. Ruiz has a practical and down to earth approach to life and inspires his viewers daily.

If you have a great idea or would like to be a guest on one of our upcoming shows and have something educational to share with our audience, then visit jmor.com and click the reach out button to let us know.
