

Leawo iOSFix for Mac V1.0.0 is Here to Fix iOS/tvOS System Issues in Any Scenario

Leawo today officially launched iOSFix for Mac V1.0.0, introducing a powerful iOS system recovery program that can fix 50+ iOS/tvOS issues on iPhone, iPad, iPod and Apple TV.

Guangdong, Shenzhen, Jun 3, 2021 (Issuewire.com) - Leawo Software, a company specialized in multimedia solutions and data management software, in order to help users fix their iDevices on Mac easily, quickly, and safely, today announced the official launch of [Leawo iOSFix for Mac V1.0.0](#). This software is a powerful but intuitive all-in-one iOS system recovery tool for Mac that can fix 50+ iOS/tvOS system errors in simple clicks, including [stuck on Apple logo](#), [black screen of death](#), stuck in a boot loop, iPhone no service, and more. The new iOSFix for Mac is available for free download beginning on Thursday, Jun. 3rd on its official website.

“The advanced firmware database has been a breakthrough on iOSFix for Win, and we’re excited to bring it to iOSFix for Mac,” said Steven Zhang, Leawo’s Chief Executive Officer, “With the up-to-date database, iOSFix for Mac can always fix iOS/tvOS system errors with the latest iOS/tvOS firmware. Users don’t need to worry about the operation of this software, for it delivers a user-friendly interface for even novices. Although it can repair iOS/tvOS system errors in any scenario, users only need to follow the on-screen instructions and click. Then it will automatically download the latest firmware and repair iOS/tvOS system issues without any extra operation.”

Safe Mode and Hard Reset Mode

Leawo iOSFix for Mac provides 2 repair modes to fix iPhone, iPad, iPod, and Apple TV. For common issues like stuck on the Apple logo, black screen of death, stuck in a boot loop, stuck in recovery mode, etc., users can choose Safe Mode (Standard Mode) to fix their iDevices without data loss. For series issues like iPhone/iPad/iPod frozen, iPhone/iPad/iPod bricked, etc., users can choose Hard Reset Mode (Advanced Mode) to fix their iDevices more thoroughly. With these two repair modes, users can fix their iOS/tvOS system errors in any scenario.

Multiple Firmware Downloading Paths

Leawo iOSFix for Mac offers three different paths to download iOS/tvOS firmware – one-click smart online download, manual download from browser, and loading firmware from local drive. Users can choose one downloading path at will to download firmware for iOS/tvOS system repair in case another downloading path gets stuck or fails. It also supports the breakpoint-resuming feature that enables users to continue downloading where they stopped last time.

One-Click to Enter/Exit Recovery Mode (Totally Free)

Leawo iOSFix for Mac provides a free button to help users enter or exit recovery mode in one click. No extra operation is required, users can get their iDevices to enter recovery mode for iTunes resetting, restoring, etc., or get their iDevices out of recovery mode.

Additional Features of Leawo iOSFix for Mac

- The advanced firmware database of iOSFix for Mac not only allows users to upgrade their iDevices to the latest iOS/tvOS system but also enables users to downgrade their iOS/tvOS from beta to the previous version.
- With the support of complete iDevice models, Leawo iOSFix for Mac can automatically detect and recognize all iDevices, and match them with their latest firmware.
- In case iOS/tvOS not recognized, Leawo iOSFix for Mac provides every iOS/tvOS owner with different detailed guidelines to troubleshoot different iDevice recognition and connection errors.

Price & Availability

To celebrate the release of the new iOSFix for Mac V1.0.0, Leawo Software just introduced a limited time offer with up to 50% discount for iOSFix for Mac - starting from Jun 3rd, all users can have the opportunity to purchase a one-year license at \$39.95, and a lifetime license at \$49.95. That is, users can save \$30 for a one-year license, and save \$50 for a lifetime license.

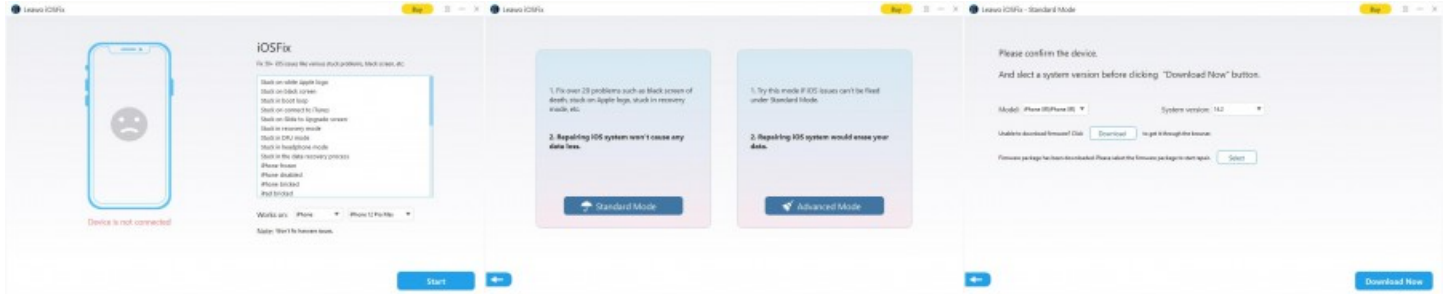

A one-year license supports up to 1 Mac computer and 3 iDevices, while a lifetime license supports up to 3 Mac computers and 10 iDevices. If necessary, users only need to purchase the corresponding license to increase the supported devices.
