

Mark Alexandrunas, DMD, a Dentist with Premier Dental of Ohio

Get to know Dentist Dr. Mark Alexandrunas, who serves patients in Granville, Ohio.

Gold Provider, Dr. Alexandrunas grew up on a farm 20 miles north of Pittsburgh. Inspired at age 14 by his uncle who was a dentist, he was captivated by the way dentists transform imperfect smiles, relieve pain, and promote both oral health and overall well-being.

After earning his Bachelor of Science degree in Pre-Medical Studies at the University of Dayton in 2001, he went on to continue his education. He attended the University of Pittsburgh School of Dental Medicine, earning his Doctor of Medicine in Dentistry degree in 2005.

Educated through the growth of his Granville dental practice, Dr. Alexandrunas set out to build a local practice group of top dentists whose brand would be synonymous with quality, patient satisfaction, and value. Premier Dental of Ohio was born from this idea.

“I take tremendous pride in the quality of our team and the care we provide. It’s our job to educate patients and keep them healthy. Most people don’t realize that teeth can’t repair themselves, so it’s our responsibility to provide them with their best options for lasting results and a lifetime of healthy function and appearance” he expressed.

Providing reliable support to both dentists and patients, Dr. Alexandrunas is also the Founder & CEO of Elevate Dental Partners, a trusted brand for high-quality dental care.

Committed to his craft, along with his skilled partners, Elevate Dental Partners’ mission is to provide support, security, and dentistry experience to other doctors. Partnerships are very selective, with a focus on top-notch processes and superior patient experiences. The ownership model uses a leveraging scale, coordinated marketing, and operational support. The process is very inclusive and designed to benefit both dental professionals and patients.

The goal of Elevate Dental Partners is to empower dentists by protecting the promise of their career and promoting a brand recognized for exceptional care.

“As I know, most of us dentists are self-aware and independent; we want to be on the beach on our terms and not shipwrecked. Most practices and owner dentists never hit their true potential and surprisingly are in difficult financial situations. I have created a Model for Dentist Owners that allows the Independent Owner Dentist to Stay Independent and Successful. If you know Change is Coming...I will show you how to grow, develop, and successfully position yourself for a strong future in this rapidly changing market” stated Dr. Alexandrunas.

In good standing with a number of professional dental organizations, he is an active member of the Ohio Dental Association, the American Dental Association, the W.D. Miller Dental Society, and the American Academy for Oral Systemic Health.

When he is not providing general, cosmetic, and preventive dentistry to patients in the Granville office, Dr. Alexandrunas works closely with doctors and staff, maintaining the standard for patient experience and quality care.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.

Happily married, Dr. Alexandrunas met his wife, Jules, in college at the University of Dayton, with whom he shares two sons, Rogan and Magnus. They enjoy spending time with friends and family and being outside with the boys. Dr. Alexandrunas loves to stay busy, enjoys playing soccer, and is a lifelong Pittsburgh Steelers fan.
