

New Features on the Best-in-Class Notetaking App, Notedex!

NoteDex

California, Los Angeles, Jun 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - If you haven't heard already, NoteDex is a cross-platform notetaking productivity app where you can create high-quality notes with best-in-class handwriting, text, and image support.

Capture and organize your notes and ideas. Share notes with your team or class. You can use NoteDex on Android or the cross-platform Web App. It supports pen-stylus on Android devices!

NoteDex is always striving to become more user-friendly every day, which means we are always adding new features and making improvements.

New to NoteDex this month:

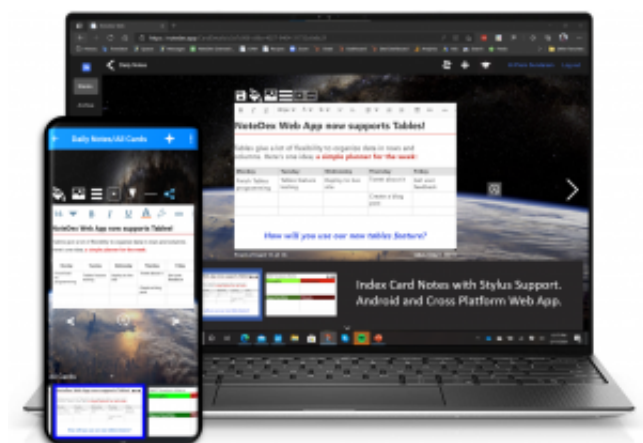

- Tables allow users to organize information and data into rows and columns to present visually in a more comprehensible manner and ideal for creating templates
- Offline-Access enables you to retrieve your notecards without the internet so you can have them when you're on the go or at a cafe
- Topic-Tags to differentiate your projects by using specific keywords and colors
- Groups to compile related cards into folders
- Filter by using keywords search
- Sort your notes by name or date

NoteDex uses the CORE information model: CREATE personalized notecards, ORGANIZE them in a way that is most suitable for you, RETRIEVE those notes any time you need, and EXCHANGE them with colleagues, classmates, or friends.

If you are striving to get organized or trying to stay on top of projects, NoteDex is an excellent tool that you should give a try! Sign up on the Web or through the Android App. All of the Universal Plan features are enabled when you sign up for the free seven-day trial.

FOR A LIMITED TIME ONLY! Take advantage as an early adopter and get Lifetime Access for a one-time payment of only \$59.99- stay composed and productive for LIFE!

NoteDex is created by Sundaram Applied Technologies, Inc. in Venice Beach, California, focused on developing apps that help boost creativity and consciousness.
