

Norina Mohd Nordin, MD, RPVI, a Vascular Surgeon with Northwest Vascular Consultants, Inc.

Get to know Vascular Surgeon Dr. Norina Mohd Nordin, who serves patients in Portland, Oregon.

New York, New York City, Jun 3, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Nordin is a knowledgeable vascular surgeon at Northwest Vascular Consultants, Inc. in Portland, Oregon.

Since 1987, patients from all over Oregon have chosen the medical professionals at Northwest Vascular

Consultants, Inc. for comprehensive vascular care. Effective treatments for a complete range of venous conditions, including varicose veins, spider veins, and other vascular problems, can be found. By using the latest cutting-edge technology, board-certified surgeons can reduce pain, restore healthy function, and improve aesthetic appearance with less invasive procedures.

After receiving an advanced diploma in Medical Sciences from International Medical University in Malaysia, Dr. Nordin obtained her medical degree from the Faculty of Medicine at McGill University in Montreal, Canada in 2004. She served her internship and residency at Waterbury Hospital from 2004-2009, followed by a two-year fellowship in vascular surgery at Carolinas Medical Center in Charlotte, North Carolina.

With years of experience, the doctor is board-certified through the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Certified as a Registered Physician in Vascular Interpretation (RPVI), Dr. Nordin is a staff member at Providence St. Vincent Medical Center, Providence Portland Medical Center, Providence Newberg Medical Center, and Providence Milwaukie Hospital.

In good standing with several professional organizations, she is an active member of the Oregon Medical Association, the Society of Vascular Surgeons, and the Washington County Medical Society.

Vascular surgery is a surgical subspecialty in which diseases of the vascular system, including the arteries, veins, and lymphatic circulation, are managed by medical therapy, minimally invasive catheter procedures, and surgical reconstruction. A vascular surgeon diagnoses, treats, and manages conditions in the arteries and veins, also called the blood vessels. These specialists treat a range of health problems, from spider and varicose veins to life-threatening aneurysms, and can help patients manage chronic conditions throughout their lives.
