

Popopie Shop Now Offers Mommy And Me Summer Dresses At Summer Special Prices

The company is raining discounts on its casual dress collection, after most buyers insisted on re-stocking the same.

Hong Kong S.A.R., Hong Kong, Jun 25, 2021 ([IssueWire.com](https://www.issuewire.com)) - As a leading women's fashion store, Popopie Shop has always looked into the diverse needs of caring parents around the globe. This time too, it's no different, after officials announced that [mommy and me summer dresses](#) will be available at special marked down rates for the next few days. The owners indicated that customers can avail of the special offers till the end of July.

Known to provide a plethora of fashionable mommy and me matching products at industry-best rates, the company has stuck to the same, even when the pandemic has made things difficult. "Not a single product will be the same as what we had displayed at the site a year back. There can be few items that sometimes make a comeback, only upon special requests, but in limited quantities," said one of the senior members of the sales and marketing team at Popopie Shop.

Often, the company declares special events and ads to reach out to prospective consumers. This time, the company resorted to such a measure a few days back. "We know that our client base has exceeded over the years. But there are people who still have no idea that these dresses that we procure can actually be so cheap, yet retain the quality. Our add-on ventures are largely catered towards them," added the executive.

When the CEO of the company was available for comment, he said, "Thanks to an effective customer care help desk, we can also be accessible over calls, mail, and chat section on a 24/7 basis. So customers who wish to get some suggestions, ideas, or even basic guidelines about the purchase and how such items can be mixed and matched, our experts are always there at their beck and call. In the event of any delay, we can assure you that we'll be present at the shortest time possible, so there's nothing to become panicky."

Officials have stated that the matching dress collection this time will contain all such varieties, including [toddler boy clothes](#), toddler girl clothes, and more. Almost all these dresses suit casual, ethnic, and even formal occasions.

About the Company
