

rloop a SpaceX award winning DAO, sign MOU with Verge and partner Voice Life.

Lancashire, Blackburn, Jun 30, 2021 ([Issuewire.com](https://www.issuewire.com)) - Engineering DAO rLoop is set to work with Verge Currency (XVG) and partner Voice Life to bring clean, continuous, and limitless power.

The U.K, 14:00 06/29/2021 Future of work platform rLoop have signed a Memorandum of Understanding (MOU) to begin work with Verge Currency and Voice Life Inc. Under the terms of the MOU, rLoop, Verge, and Voice Life will work collectively to build upon the Far Field Wireless Charging System (FFWCS) with the stated goal of emitting clean, continuous, and limitless power to charge autonomous vehicles, IoT devices, and smartphones.

“For our, DAO to join forces with a community project like Verge, and partner Voice Life, it brings the rLoop future of work platform towards an electrifying tomorrow, where we get the opportunity to build the next generation of energy transmission,” said Ilyas Vali.

By combining the expertise behind the rLoop DAO, the technology developed by Voice Life, and the open-source community of Verge Currency, the power of 3 is positioned to disrupt energy distribution.

When asked about the development, Justin Vendetta the creator of Verge, said he was ecstatic, 'Nikki reached out to rloop to make this happen, which exemplifies our volunteer community efforts; and now it's snowballing, getting bigger and bigger every day'.

Robert Smith, founder of Voice Life said 'the recent advancements in blockchain technology and the energy markets are all converging. I believe that the expansion of the Far-Field Wireless Charging Platform with the involvement of Verge and rloop is creating a major disruptive technology advancement'

About rLoop

rLoop is a decentralized autonomous organisation (DAO) that was built as a result of the SpaceX hyperloop competition, aiming to solve global challenges.

Hyperloop competition:
