

Siege Technologies Names New Board of Directors

Virginia, Chantilly, Jun 9, 2021 ([Issuewire.com](https://www.issuewire.com)) - SIEGE Technologies is excited to welcome Steve Parode RADM USN (ret); Randy Stilley; and Timothy White VADM USN (ret) to our Board of Directors. "We are very fortunate to engage this team's deep expertise and knowledge," says Alex Clary, Principal with Braes Capital. "Their recent senior DOD and Energy sector roles will help SIEGE launch a range of sophisticated offensive and defensive cyber offerings throughout the US and Commercial Sector."

Steve Parode, RADM USN (ret) is a distinguished graduate of the U.S. Naval War College. He served as commanding officer of Navy Cyber Warfare Development Group; the deputy director for IO at the office of the Under Secretary of Defense (OUSD); Director of Intelligence (J2) for U.S. Strategic Command; Deputy Chief of Computer Network Operations (X43) at NSA; and Director for Information Warfare Integration Directorate, N2/N6F, Office of the Chief of Naval Operations. RADM Parode's military awards include the Defense Superior Service Medal (two awards), Legion of Merit, and the Combat Action Ribbon.

Mr. Randy Stilley holds a B.S. degree in Aerospace Engineering from the University of Texas at Austin. His extensive career in the energy sector includes serving as the CEO of multiple public energy companies from Hercules to Paragon; served as the CEO at Seahawk Drilling and an executive at Haliburton and Weatherford. He is currently the CEO of EFrac. He is a registered professional engineer in the state of Texas and a Member of the Society of Petroleum Engineers. Mr. Stilley sits on several not-for-profit boards supporting the arts and other charitable foundations.

Timothy J (TJ) White, VADM USN (ret) is a graduate of the United States Naval Academy. His command tours include Naval Security Group Activity Bahrain and Navy Information Operations Command Maryland. As a flag officer, he has served as deputy director, Tailored Access Operations, NSA and as director for intelligence, J2, U.S. Pacific Command. TJ's last tour was as Commander, Cyber National Mission Force, USCYBERCOM. VADM White assumed command of U.S. Fleet Cyber Command/U.S. 10th Fleet in June 2018.

About SIEGE Technologies

As an advanced research and development company, SIEGE focuses exclusively on offensive and defensive cybersecurity technologies. Since its inception in 2010, the firm has enjoyed consistent year-over-year growth from a diverse customer base spanning US government agencies and commercial organizations funding research, development, and acquisition of advanced information security technologies. SIEGE was created to provide world-class technology solutions and maximum value for its diverse customer base, bringing unsurpassed expertise in cybersecurity to bear on the problem in an agile, customer-mission-focused environment.
