

Stephanie Reeves, BSN, RN, a Registered Nurse with Cardiovascular Association

Get to know Registered Nurse, Stephanie Reeves, who serves patients in Houston, Texas.

New York, New York City, Jun 1, 2021 ([IssueWire.com](https://www.issuewire.com)) - Stephanie is a registered nurse who has been working at the Cardiovascular Association in Houston, Texas since June of 2010.

As the nurse supervisor of a busy private cardiology office, some of her responsibilities include patient care and triage, research coordination, staffing, and marketing. She also coordinates and manages 5 satellite clinics and an in-office procedure clinic.

Back in the early days of her academic career, Stephanie graduated with her Bachelor of Science in Nursing degree from Texas Tech University in 2010.

Prior to her current endeavors, she worked as a Clinical Coordinator of Critical Care with Memorial Hermann Healthcare System (November 2007 - November 2010), and as a registered nurse (floor nurse / medical-surgical nursing) with Tenet Healthcare (September 2006 - November 2007).

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support, coordinating care, and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
