

Students Are Excited to Get Back to In-Person, On-Campus Summer Programs with American Collegiate Adventures (ACA)

Illinois, Chicago, Jun 14, 2021 ([IssueWire.com](https://www.IssueWire.com)) - ACA offers both high school and middle school students in-person and on-campus summer programs including academics, athletics, and adventures. Summer 2021 is going to be an exciting one in three amazing and safe college towns. These programs are being held at the University of Vermont in Burlington, the University of Maryland in College Park, and Pepperdine University in Malibu.

"I'm looking forward to a new experience and having a great time this summer with ACA," said Spencer from Florida.

"I can't wait to have fun and enjoy the moments I'll be having during my summer abroad in the US this summer with ACA," said Adrian from Mexico.

"I am most excited about the classes that are being offered during my summer program with ACA," said Kylie from New Jersey.

Successful Covid-19 safety measures were implemented last year for ACA 2020 summer programs, making 2021 more seamless with a proven track record for proper safety measures set so that parents and teens can feel at ease while enjoying their Camp-on-Campus summer experience.

As part of ACA's commitment to student safety, ACA staff members live on student-occupied floors, accompany students on all activities and excursions, and are always equipped with mobile phones for emergencies. In addition, private transportation is scheduled for weekday activities and weekend adventure trips – never public transportation.

About ACA: American Collegiate Adventures (ACA) was founded 28 years ago, and the cornerstone of our 28 years has been the safety of its students and staff. Our guiding philosophy has been to boost the confidence and comfort of students on the verge of new academic and social challenges. It is our hope that every ACA student returns from our summer programs with a greater understanding of the opportunities ahead and a true appreciation of life-long friendships and new experiences. With ACA, we've found a way to give students a preview of college life, a way to grow and learn, and plenty of time to have an awesome camp-on-campus summer experience. Here at ACA, we believe you will become part of the most well-rounded, personalized summer program available anywhere.
