Harju, Tallinn, Jun 30, 2021 (Issuewire.com) - The Liquidfy project is a blockchain innovative community-driven DEFI initiative built on the Binance Smart Chain Protocol, with the primary objective of providing liquidity to certified DEFI projects, while generating profit returns to liquidity providers. The Liquidfy project platform will lead a new era of the modern transformation in the blockchain industry and usher a stable prevailing market condition for the general DEFI markets and the overall cryptocurrency industry at large. It is designed to solve the price volatility problem created by the inadequacy of liquidity in many DEFI platforms.

SUCCESSFUL COMPLETION OF PRIVATE SALE AND COMMENCEMENT OF CROWDSALE

We are glad to announce the successful completion of the Liquidfy private sale event and the commencement of the multiple phases of the crowdsale event. The tremendous success achieved so far, is a true reflection of the belief and acknowledgment of the potentials of the Liquidfy project by the global community, in bringing stability to the overall cryptocurrency industry.

POWER OF COMMUNITY

The minimum purchase is 50 LFY

The maximum purchase is 100,000 LFY

Private sales price is \$0.35 (1bnb =1000 LFY)

Each successful end of a phase will create an impact on price with an additional \$0.05

Therefore:

phase 1- phase 10 yields a profit margin of \$0.5

Phase 1-20 yields \$1

Phase 1-30 yields \$1.5

Phase 1-40 yields \$2.0

Phase 1-50 yields \$2.5

Phase 1-60 yields \$3.0

Phase 1-70 yields \$3.5

Phase 1-80 yields \$4.0

Phase 1-90 yields \$ 4.5

Phase 1-100 yield \$ 5.0

$\$5.0 + \$0.35(\text{private sales price}) = \$5.35(\text{listing price as 100 Phases are successfully reached})$

UNDERSTANDING THE POWER IN EARLY ADOPTION

Example

The minimum purchase of 50 LFY will cost \$20 at the current rate.

At the 100th phase, the same 50 LFY in your hands is worth \$267.5

Profit margin :\$247.5

Example

\$500 purchase will enable you to purchase 1,250 LFY

At the successful completion of 100 Phases, 1,250 LFY is yielding \$6,687.5

Profit: \$6,187.5

Example :

\$1000 will enable you to buy 2,500 LFY

At the successful completion of 100 Phases, 2,500 LFY will yield \$13,375

Profit margin : \$12,375
