

Two new PEB projects to boost Pinax Steel's international presence.

From conceptualization to erection, our success rate in providing our clients with complete turnkey PEB solutions has placed us where we are today

STANDING TALL & STRONG

PEBs are designed for longer period of applications and are made with materials which ensure that the buildings are all weather-proof.

has evolved into a name to reckon with in India. Today, it has grown further by bagging projects from outside India. Yeti Brewery, Nepal's leading soft drink manufacturing company, has chosen Pinax Steel as its PEB construction company for a 63,000 sq. ft. PEB shed. The news doesn't just end here. Vishal Group, also from Nepal, has signed them for a large PEB shed with a clear span of 44 m.

The end-user of this PEB shed will be Parle Agro.

"From conceptualization to erection, our success rate in providing our clients with complete turnkey PEB solutions has placed us where we are today. As a start to our PEBs' international journey, two eminent brands have trusted us.

We hope that they will be pleased with our precision and quality like our other clients", said Kumar Mangalam, Director, Pinax Group.

These two projects in Nepal will boost Pinax Steel's PEB portfolio.

As a PEB construction company working for reputed public and private sector brands, it already commands a good market share.
