

Vegan Food Delivery Service Launches UK Produced Vegan Indian Ready Meals

Vegan meals made with natural ingredients, without preservatives or artificial flavour.

Oxford, Bicester, Jun 30, 2021 ([Issuewire.com](https://www.issuewire.com)) - In the town of Bicester, Oxfordshire, Neats kitchen, a food delivery service founded by Tanuj Grover was created from Grover's love for developing menus and dishes that must not fail to amaze clients.

It was also his ambition to bring the production of free-from food products that deliver on a distinctive taste, refinement, and quality. Read on the full story behind [Neats Kitchen](#).

In 2019, Grover was diagnosed with high cholesterol, and as a dedicated culinary development chef, he wanted to create plant-based food products, with a focus on North Indian plant-based food.

With the plant-based market on the rise, there is a void in UK-produced ready meals, which are now difficult to come by. The Bicester food delivery service, Neats kitchen, aims to fill this gap with its launch of UK-produced [vegan Indian-ready meals](#).

Neats kitchen serves ready meals like [Palak Tofu with Turmeric Rice](#), [Vegetable korma with Pilau Rice](#) and so much more made with selected Indian spices naturally and without preservatives, which helps in building immunity and metabolism. Their ready meals have been developed with the focus of having a taste of home-cooked food.

Neats kitchen assures their customers nationwide delivery to your home the next day! With all ready meals packed in eco-friendly packaging and can be reheated in the same container for consumer convenience, Neats kitchen makes sustainability a priority.

A customer left a review on google saying, “Very innovative and creative, talk about the taste of the delicious food would not be sufficient. You have to try the goodness for yourself.”

The Neats kitchen invites all vegetarians, vegans, plant-based eaters, gluten-free eaters, and flexitarians to try one of their delicious vegan packs, promising that it won't disappoint. Get in contact with them via mail through address hello@neatskitchen.co.uk
