Here, customers can find cheap items from local marketplaces without having to haggle for a discount, all because Yoorekka has already pre-negotiated for lower prices!

Through the Tiangge Center, shoppers can discover deals on Class A products and items usually sold in local marketplaces. At the moment, the channel offers affordable fashion apparel, beauty and wellness items, and home improvement products from local businesses. 'Affordable' is the keyword, for items sold at the Tiangge Center are marked down and are wildly lower than normal prices at a regular store outlet. [Shopping online](#) will never get boring as surprising deals appear on every page!

Unlike a typical [online shopping](#) site, Yoorekka's Tiangge Center is designed to give merchants and sellers an advantage, too. Other than providing an easy and convenient platform for merchants to secure payments, Yoorekka also takes care of the transactions to make online selling easier. Not only that, but Yoorekka can also help sellers reach a wider audience and establish new customers!

More than ever, Yoorekka hopes to benefit merchants by selling their out-of-season or old products, and slow-moving and excess inventories and sell them to a lower price, and use sales to their advantage. Through this model, Yoorekka's online store is poised to be the virtual go-to spot where businesses can conduct a liquidation sale with ease while providing customers a way to save when they shop online.

The Tiangge Center is part of Yoorekka.com's Online Selling Suite. The suite aims to bring the thrill of

online shopping to the next level by curating local and recognized brands in three channels: Tiangge Center, [Webmall Outlets](#), and [Yoorekka Deals](#).

With this latest offering, Yoorekka can certainly bring more savings to discerning shoppers while helping merchants at the same time. Built to be an easy and fun online shopping site, the Tiangge Center is the only place on the internet where people can truly shop online and get low prices!
