HP Wireless Printer Installation Guide

How to install and configure the HP printer online

In this article, we will briefly discuss all the challenges that come up at the time of HP wireless printer setup along with their solution.

All printers have a basic installation process which is a wired or wireless setup where the steps to configure the HP printer are different for both. So, in this article, we have explained detailed information on how to install an HP printer, install a hp printer without CD, and HP printer setup (wired / wireless).

Steps for HP printer wireless setup without CDHP printer wireless setup without a CD can be done with the following steps:

- The first step is to check whether the printer is establishing a network with a wireless connection. You can check this by [Clicking Here](#)
- Next, follow the user manual and locate the power button to switch it on.
- Once the printer gets switched on, connect it with the router.
- This is the most important step to set up an HP Wireless printer without a CD. For this, visit the official website of HP or 123.hp.com/setup and initiate the installation of printer drivers. Ensure to enter the exact model number of the printer.

Follow the instructions below to set up the HP wireless printer in Windows:

Unpack the printer box: Begin by taking the printer out of the box and remove the tape and packing material. If your printer is all-in-one, remove the packing material from the scanner glass as well. Be sure to remove the packing material near the carriage and the paper input tray.

Connect the printer to a power source: Now connect the printing device to the power source and turn it on. Next, set the country, time, and region from the Control Panel.

Ink Cartridge Alignment and Installation - Now is the time to install and align the ink cartridges. To do so, follow the steps mentioned below:

Begin by opening the ink cartridge access door. The user must wait patiently until the cart is idle and silent before proceeding to the next step.

Now, with great caution, remove the tape from the ink cartridges before inserting them into the carriage.

Carefully close the cartridge access door and follow the instructions on the printer.

Now, as a final step, follow the instructions given on the alignment page to complete the ink cartridge alignment.
