New York, New York City, Jul 20, 2021 (Issuewire.com**)** - **Global Transmission** is organizing its **virtual conference** on **Transmission Infrastructure Investment** on **July 28-29, 2021**. The objective of the conference is to explore the issues that impact transmission investment and discuss how to finance the needed infrastructure.

In the keynote panels, Genevieve Shiroma, Commissioner, California PUC; Megan Decker, Chair, Oregon PUC; Eric Blank, Chairman, Colorado PUC; and Carrie Zalewski, Chairman, Illinois Commerce Commission will share the plans for promoting transmission investment in their respective states. We have a stellar cast of speakers that represent leading policymakers, regulators, utilities, investors, technology providers, legal and financial advisors, consultants, and industry observers and experts. To view the final agenda, please visit https://bit.ly/3rkHiFH.

Over 170 participants from 80 organizations have already confirmed participation. They include: 50Hertz Transmission; AES Clean Energy; Anterix; Americans for a Clean Energy Grid; Ameren Transmission Company of Illinois; ARC Advisory Group; BlackRock; Bloomberg NEF; Burns and McDonalds; California Independent System Operator; California Public Utilities Commission; Cleaveland/Price Inc.; Colorado Public Utilities Commission; Con Edison Transmission; Coil Innovation USA; CTC Global; Dentons; Direct Connect DevelopmentCo, LLC; Doyle Land Services; Dragos, Inc; Elecnor SA; Electric Power Research Institute; Engie Brasil; FTI Consulting; GE; GE Grid Solutions; Grid Strategies LLC; GridWise Alliance; Herrenknecht; Highvolt; Hubbell Utility Solutions; ICF; Illinois Commerce Commission; ITC Holding Corp; LineVision, Inc; London Economics International; LS Power Development; Massachusetts Department of Public Utilities; Megger; NKT; National Audubon Society; Pfisterer North America; PJM Interconnection; Prysmian Cables and Systems; Public Service Electric & Gas Company; Public Service Commission of Wisconsin; Reinhausen; R Street Institute; Sediver; Siemens Energy; Skipper Limited; South Dakota Public Utility Commission; Starwood Energy Group; Sterlite; The Blackstone Group; The Brattle Group; Tom Alrich LLC; Tower Solutions; US Department of Commerce; US Department of Energy; US Energy Storage Association; Virginia Department of Mines, Minerals, and Energy; WSP; Xcel Energy; etc.

CTC Global, Dentons, and LineVision are sponsoring the conference.

The **two-day virtual event** will focus on presentations and panel discussions to understand evolving industry structures, assess challenges and identify potential solutions for financing the next wave of transmission development in the US. The conference will highlight the policies and regulations needed

to boost investment. It will present network plans of leading utilities and priorities and perspectives of RTOs/ISOs. The conference will also highlight the experience with competitive bidding.
