Singapore, Singapore, Jul 1, 2021 ([IssueWire.com](https://www.issuewire.com)) - DeFi-enabled social trading platform, Alpha Impact (<https://www.alphaimpact.fi/>) is announcing the launch of their first-ever Alpha Games.

On a mission to drive mainstream crypto adoption through gamification, Alpha Impact aims to revolutionize crypto trading for everyone through a user-friendly copy trading platform.

What is this Alpha Wolf Game?

To summarize the Alpha Wolf game, users would need to purchase and stake 3,750 IMPACT (worth **US\$300** at time of writing) to participate as a player. Players can unstake their 3,750 IMPACT

tokens after 90 days with a 10% APY gain. Participants would be required to register on Alpha Impact's official website. Alpha Impact Team will be verifying each participant before the Alpha Game starts.

Once 20 entries are filled, Alpha Impact will be using an online third-party randomizer, a spinning wheel will randomly select 1 winner out of the 20 participants. That winner will receive **7,500 IMPACT** (worth **US\$500** at the time of writing). Alpha Impact will run a lottery round for every 20 participants they get.

How to join?

To get 1 lottery entry in the Alpha Games, players need to purchase and stake 3,750 IMPACT tokens. Once a player is staking their IMPACT, they can register their wallet address [here](#). A player can purchase multiple entries to increase their chances of winning.

The game benefits non-winners too as players who stake their IMPACT for 90 days will be able to collect back their tokens with 10% APY.

"We created this gamification to provide better rewards to IMPACT token holders, while at the same time earning their loyalty. The winner must join or be a member of Alpha Impact's Official Telegram Group and contact the community managers for more details on the collection of their winnings.
