

Ayush Patel's hobby took him to the heights

Someone has rightly said, if you want something with a sincere heart, then you will definitely get it

Uttar Pradesh, Lucknow, Jul 4, 2021 ([IssueWire.com](https://www.issuewire.com)) - Someone has rightly said, if you want something with a sincere heart, then you will definitely get it. Yes, 19-year-old Ayush Patel is a Certified Ethical Hacker, **Red Hat Certified System Administration**, and A Self Published Author who has given himself a different identity today.

He is the founding father of Ayush Security Solutions, a full-service IT security company based in Lucknow, At the age of nineteen He's an author of 2 books named Social Media Marketing Trends 2021 that relies on Digital Marketing and Hackers Republic Hand Book supported Cyber Security.

Ayush Patel hails from a Small Town in District Lucknow, Uttar Pradesh. He completed his studies till 11th from the Sankat Mochan Public School in the town itself. But in High School, he got only 59% marks in the 10th final Exam.

While taking mathematics in 11th, his teacher told his father that he was not even qualified for arts. But, After Some time he Got Mathematics, In Intermediate sadly he Got Compartment in Mathematics.

According to Ayush Patel, his interest lighten up in class 11th towards the domain of cybersecurity.

Ayush Patel apart from providing consultancy services to many corporate companies, In addition, they also provide online training to foreign students. Along with this, he also provides framed-video courses on Ethical Hacking, Cyber Security, Computer Forensics, and Darknet.

Ayush is inspired by Dr. APJ Kalam and believes that there is nothing nobler than helping someone to fulfill their dream and making their future and that is what they are doing.

They believe that there are times in life when we feel that we should give up everything in difficulties. But life is full of challenges, rejections, and failures and these challenges and struggles give them the strength to solve any problem and the enthusiasm to learn new things. This sentence has always inspired Ayush Patel.

Ayush Patel Became Youngest Red Hat Certified System Administrator.

Recently, Ayush Patel Cleared the Global Exam of Red Hat RHCSA v8 at the age of 20 and became the youngest system administrator. In an Interview, with us, Ayush explained his journey of becoming a Red Hat Professional.

Ayush told us, He enrolled for this course in 2019, he started learning about Red Hat Linux, from basics to advance examples: user management, firewall, disk partition, etc.

He told us it was not easy for him while studying along with other subjects. Ayush has been working daily From 6 pm -12 am to sharpen his skills in Linux. He scheduled his exam on 12 April 2021, he was all set to clear the exam on 1st attempt, Ayush said while solving the root password breaking question in the exam one of the Linux machines got crashed but at that time he was unaware of that, he was happy and thinking his exam his cleared now but the truth was something else. After one-hour results arrived on email. He failed! 160 marks out of 200. Ayush Said, He was shocked after seeing the results, totally broken at that time. He motivated him and said, Ayush You're having abilities to clear the Exam. He prepared again for the exam and scheduled it for 1 June 2021. Ayush told us he was quite nervous while the examination he lost connection 3 times in exam luckily he solved all questions in 1.5 hours after one hour he got the results by mail. He cleared the exam this time 230 out of 300. Ayush Always says failure is the 1st step of success.
