

Best Organic Skincare Products for Acne & Eczema

#Back2BasicSkinCare

Singapore, Singapore, Jul 4, 2021 ([Issuewire.com](https://www.issuewire.com)) - Those with sensitive skin, especially acne and eczema, will agree that searching for the right [skincare products](#) can be a tedious process. Having grown up with acne and eczema, Jo understands the challenges associated with sensitive skin and hence launched a clean beauty brand, BasicallyJo.

Choosing the right acne cream can be challenging as most acne creams tend to be too dry for the face,

resulting in wrinkles and dry skin. It is recommended to pair acne cream with a moisturizer, but the [best acne treatment cream](#) is a moisturiser that also has acne healing properties so all you need is just a single skincare product!

Founded by Jo who has struggled with hormonal acne, BasicallyJo has the [best acne cream in Singapore](#). Its emphasis on clean beauty means that its skincare products are free from harmful chemicals and substances, thus reducing the possibilities of acne flare-ups.

The aftermath of acne can be equally dreadful - having to deal with acne scars. Yes, an [acne scar removal cream](#) will do the trick, but how effective is it? The Pureforet Centella Cica skincare range also doubles up as an acne scar cream due to the presence of allantoin, which is known for its whitening properties. The Pureforet Centella Cica Sun Cream, in particular, has been highly raved as the best [face cream for acne scars](#) by acne bearers as it protects the marks from becoming darker due to UV rays, and also lightens the acne scars.

Jo also noted that there are many [eczema moisturizers or lotions](#) for eczema that are meant for the body but not eczema cream for the face. Moreover, these moisturizers for eczema do not exactly help with eczema itching. Hence, she went on a hunt to search for the best cream for eczema itching. The Pureforet [Centella Cica Balm](#) is the best natural lotion for eczema, as it soothes eczema inflammation instantly, and also moisturizes the skin. The eczema balm can also be used for the face and body. If you are looking for a good lotion for eczema, well look no further! Made of 100% Natural Ingredients, it is safe for babies above 1 year old too!

A good lotion for eczema is one that is lightweight and does not compromise on its moisturizing capabilities. The search for the [best lotion for eczema](#) led Jo to discover the Pureforet Centella Cica Lotion. Not only is it a body lotion for eczema, but it also doubles up as an eczema cream for the face! Pair it with the Pureforet Centella Cica Toner and have your skin nourished and hydrated to prevent and [treat your eczema flare-ups](#) and acne breakouts!
