

BTCLD – The Best Video Downloader is here to offer High-Quality MP3 and MP4 Versions

United States, Alabama, Jul 19, 2021 (IssueWire.com) - Digitization has offered people access to various social media platforms where they can share videos or MP3 files of their choices. Well, selecting your preferable video from a video streaming site and converting it to a high-quality MP4 version is difficult as most sites online are full of cookies and PPC ad copy. However, BTCLD has taken a new initiative to make the process easier for you. This online video converter site will help you to download anything that you wish from the popular video streaming site.

Your downloadable file can be an MP3, a playlist, or a clip as well. Sometimes you head over to a place where there is no internet connection and here you can only play songs from your playlist. But staying tuned to your favorite MP4 is not possible without download. BTCLD has a simple box to fill up. Now, you just have to copy the URL of your videos and paste it on the box available at this video converter site. Right after placing the URL, click on the START NOW button. Here, you will be given the options – MP3, Audio, and Video. Also, you are able to choose the size of the files that you are going to convert. Once you decide on the size and version, it's time to click on the Download button and the conversion will be done in no time.

There are some video streaming sites that approve only four kinds of audio formats PCM audio in WAV container, MP3 in MP3/WAV container, AAC in MOV container, and FLAC. However, BTCLD helps you to convert videos in WMV format to an MP4 version. The download will take a minimum time and therefore, you can enjoy playing it whenever you wish. This website has made the interface so easy that a beginner can quickly grab it. Moreover, the conversion of any audio or video file will not charge a penny from you.

As there are many other sites offering the same services, you may raise a question if using BTCLD will be safe. Well, converting your media files via this website won't harm your PC or mobile. Here, you don't have to face endless ads as well. Videos that are enlisted under the categories - creative commons, public domain, and copyleft can be downloaded legally. While placing a URL for download, you don't have to install any software as the conversions are all done through an online user interface.

This hassle-free MP3 to MP4 converter (vice versa) has made its interface easy, quick, and anonymous so that you can safely convert your preferred files. Well, if you have ever created a playlist on any of the popular video streaming sites and wanted them to hear offline, then BTCLD is the best solution for you. You can download the entire playlist and listen to the files during your break period.

BTCLD has always wanted a simple interface for the users that can help you convert your chosen files anytime, anywhere. It seems that this video downloader site is soon going to draw the attention of most of the users online. The team of developers at this site has kept the page clean from any kind of PPC ads. If you are unable to convert any file, then you can head over to the FAQ section where you will find some clear question answers to help your conversions. Apart from the given FAQs if you want to know something more, then you can click on the contact tab and submit your message. The respected project handler will surely get back to you within 24 hours.
