

China Tuesi Smart Glasses Manufacturer Announces Launch of Latest Coomusic Bluetooth Glasses

Stylish Bluetooth Glasses Factory with OEM/ODM Manufacturing for Bulk Buying

Washington, Seattle, Jul 11, 2021 ([Issuewire.com](https://www.issuewire.com)) - Tuesi, China's reputed [smart glasses manufacturers](#) are pleased to announce the latest range of Acetate Bluetooth glasses frames. Acetate is an incredibly durable, light in weight, and flexible thermoplastic material used for glass frames. They are extremely flexible and there is no need to worry about broken or bent frames anymore. The best thing about these frames being bendable is that they can bend as per the contour of the face and that too in a comfortable manner. Here at Tuesi [bluetooth glasses factory](#), bulk buyers can also shop for OEM/ODM frames for personal branding. Round, square, rectangular, and many other styles can be found here with custom logo printing. The round eyewear frames are available in transparent, champagne, pink, blue, tortoiseshell, and black color, we can do all colorway as customers favor.

The leading acetate **smart glasses manufacturer** also offers new designs trending in 2021. The **Bluetooth sunglasses** too are available in the same color range as mentioned above. The same goes for rectangular eyeglasses frames and optical glasses. See the world more beautifully with the smart glasses frames by Tuesi. For those who are looking for ultimate flexibility and toughness, durability as

well as luxury, the acetate frames are the best bet. The frames are also made to withstand any hard impact. Available in a cool color range, retail brands can now give their customers something stylish to wear day in and day out. At Tuesi, 100% customer satisfaction has always been the top priority.
