

# Construction Equipment Market Size, Share & Trends Analysis Report 2021-2026

**New York, New York City, Jul 6, 2021 ([IssueWire.com](https://www.issuewire.com))** - According to the latest report by IMARC Group, titled “[Construction Equipment Market Size: Global Industry Trends, Size, Growth, Opportunity and Forecast 2021-2026](#)”, the global construction equipment market exhibited moderate growth during 2015-2020 and expects the market to grow at a CAGR of around 6% during 2021-2026

Construction equipment is used to make construction processes easier and faster. It is available in different types, depending on the application. For instance, an excavator digs and crushes heavy material on a site, while a paver is employed in road construction for evenly distributing asphalt on the road surface. Presently, due to stringent regulations on noise emissions, several manufacturers are developing eco-friendly equipment as well as integrating telematics and safety technologies to deliver enhanced operational capabilities.

As the novel coronavirus (**COVID-19**) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally, and our estimates about the latest market trends and forecasts, are being done after considering the impact of this pandemic.

## **Global Construction Equipment Market Trends:**

Increasing investments in infrastructural development, in confluence with a significant rise in commercial construction activities, represents one of the major factors bolstering market growth. Moreover, the

emerging automation trend in construction processes is contributing to the growth of the market. Apart from this, several manufacturers are focusing on upgrading existing equipment into next-generation machines by integrating advanced technologies, such as the internet of things (IoT). This is projected to create a positive outlook for the market.
