

## Daniel Baker, MD, a Plastic Surgeon in Private Practice

Get to know Plastic Surgeon Dr. Daniel Baker, who serves patients in New York, New York.

**New York, New York City, Jul 2, 2021 ([Issuewire.com](https://www.issuewire.com))** - Dr. Baker is a prominent, New York-based plastic surgeon with a practice on the Upper East Side. Having been performing plastic surgery for over three decades, his early years were devoted to microsurgery and limb reattachment as well as head and neck cancer reconstruction. In the past 20 years, the majority of his surgery has been the aesthetic face, nose, eyelids, breast, body sculpting, and liposuction. However, he continues to dedicate time to facial cancer and facial paralysis reconstruction.

“Plastic surgery can accomplish major changes and improvements in the face, nose, eyes, breasts, and body. If the proportions and aesthetic lines are kept normal, the results will be natural, which is what most patients desire. I perform all surgery myself without assistants, and you will look natural” expressed the doctor.

His hospital affiliations include Bellevue Hospital, Manhattan Eye, Ear, And Throat Hospital, and Lenox Hill Hospital.

Having been teaching plastic surgeons for over 25 years, he has been invited to lecture and perform surgical demonstrations for plastic surgeons in over 30 countries around the world. Every year, he lectures and teaches at numerous national meetings in the United States and international meetings around the world.

Graduating with his Bachelor of Arts degree from Columbia College, Dr. Baker went on to earn his medical degree from Columbia University Vagelos College of Physicians and Surgeons. His post-graduate training included a residency in general surgery at the University of California, San Francisco, a residency in plastic surgery at the Institute of Reconstructive Plastic Surgery, and a fellowship in head and neck cancer and reconstructive surgery at NewYork-Presbyterian/Columbia University Irving Medical Center.

With a focus on cosmetic procedures, he is board-certified in plastic surgery by the American Board of Plastic Surgery (ABPS). The mission of the ABPS is to promote safe, ethical, efficacious plastic surgery to the public by maintaining high standards for the education, examination, certification, and continuous certification of plastic surgeons as specialists and subspecialists.

In good standing with a number of professional organizations, Dr. Baker is an active member of the American Society of Plastic and Reconstructive Surgeons, the American Association of Plastic Surgeons, the American Society of Aesthetic Plastic Surgery, the International Society of Aesthetic Plastic Surgery, the American Society of Microsurgery, the International Society of Reconstructive Microsurgery, the American Society for Dermatologic Surgery, and the International Society for Dermatologic Surgery.

Plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two main categories - reconstructive surgery and cosmetic surgery. A plastic surgeon's primary responsibility is performing surgical and non-surgical procedures, and they use a variety of reparative and reconstructive techniques to get the job done.

As a testament to his success, Dr. Baker has been the recipient of the Patients' Choice Award (2008, 2010, 2011, 2018, 2020), On-Time Doctor Award (2015, 2016, 2018, 2020), and Compassionate Doctor Recognition (2016, 2018, 2020).
