

Davina Godfrey, BSN, RN, a Registered Nurse with HCA Houston Healthcare Tomball

Get to know Registered Nurse, Davina Godfrey, who serves patients in Tomball, Texas.

New York, New York City, Jul 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - Efficient yet emphatic in her care, Davina is an accomplished registered nurse with over three years of dedicated experience across a variety of duties associated with in-hospital and home health medicine. She is exceptionally skilled in all facets of patient assessment and interdisciplinary communication.

Currently, she works at HCA Houston Healthcare Tomball, which has provided quality healthcare to Tomball, Magnolia, and Northwest Houston communities since 1948. The 150-acre campus features designated specialty centers and services including Designated Level III Trauma Center, Advanced robotic surgery program with 24/7 service, Joint Commission-certified Primary Stroke Center, Comprehensive Women's Services and Labor & Delivery unit with Level II Neonatal Intensive Care Unit, Robert F. Schaper Heart Center, Texas Sports Medicine Center, and a Specialized Orthopedic Center offering a joint replacement.

To begin her academic career, Davina attended Houston Community College and graduated with her Associate of Arts degree in 2015. From there, she went on to earn her Bachelor of Science in Nursing degree from Lamar University in 2017.

In order to provide each of her patients with the specialized care they need, she holds expertise working in medical-surgical nursing, float nursing, as well as travel nursing. She is also an active member of the Academy of Medical-Surgical Nurses.

On a more personal note, Davina feels that her nursing program prepared her for her career. She was very introverted before becoming a nurse but learned through nursing to change. She takes ownership of each patient, giving them the top-quality care they deserve. With this zeal on a day-to-day basis, she won a DAISY Award.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RN's fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
