Georgia, Atlanta, Jul 6, 2021 ([Issuewire.com](https://www.issuewire.com)) - **Eastside**, a rising young musician from Georgia, continues to astound his fans with the quality of his musical skills. The newcomer [Atlanta Hip hop music artist](#) began his musical career as a rapper/lyricist in a closet at a friend's house. From a newcomer to the hip hop revolution to a seasoned artist who has influenced others, he has released his new song '**Meet Velli**' as a present to his worldwide dedicated followers, inviting them to surrender to the depth of emotions and melodies he has packed for the next year. He decides to release the song in 2021 in order to have a greater influence on the wounded and emotional souls and to be able to experience the sun of a new year in a different light, free of all mental battles. He's already setting lofty goals for himself and achieving them with the same aplomb as his classmates. The song serves as an excellent introduction to his work, as well as a step forward in terms of his accomplishments and the name he's establishing in the scene.

Eastside is a young American rapper that is improving his hip hop knowledge with each passing year. He began playing the drums at the age of five for a church nearby named Fairfield Baptist. He's currently developing into a multi-talented artist and producer. He is interested in becoming a rapper because he wants to express his emotions and fears. He had a string of hit singles and playlists in the first half of this year. He has a horde of enraged fans that identify with his songs and raps and want to emerge victorious from a heartbreaking circumstance. Currently, the young rapper is attempting to break into a somewhat different genre known as emo-rap, which is a rarity in and of itself. Years

passed, and he began to freestyle and create street rhymes. He wanted to be noticed at this moment, so he began to take music seriously. He eventually went to Paine College on a track scholarship after graduating from high school, but he was arrested and thrown out. Bausini, a record executive for Muscle Jam Music, an independent music company based in Union City, Georgia, saw him and started to work with him for good music.

The new tunes are modified with some unique twists and originality in '**Meet Velli**'. He has a passion for innovative music, as seen by the new track, which features alternative hip hop beats. It has a compelling hook that will entice you to listen to the song all the way to the end. The chorus of the song is intriguing and compelling, transporting you to the dark pit of a wounded heart. As he describes a train of thoughts that includes his struggle, party vibes, and successful journey in the music industry, the song creates a lost emotion in your thoughts. With a smooth groove and a gently soulful delivery, it returns with a somewhat dance-hall-like bounce – light and summery riff contrasts with a strong yet slow-paced bass-line, and a succession of alternating, dynamic-building vocal sections help keep your attention.
