

First of Its Kind: Halen App the-all-in one Platform for On-Demand Mobile Services

“Illuminating the mobile services app”

California, Los Angeles, Jul 1, 2021 ([Issuewire.com](https://www.issuewire.com)) - Heard of Halen Technology soon to be launched App? If not, it is high time you did, as the new innovation comes to ease the lives of its users globally. Halen app is a must-have app if you want to achieve the best exposure for your business or service by communicating to a large community across the globe.

Earlier today, the founders of Halen technology are thrilled to announce to the public about their soon-to-be-launched App known as Halen. Halen App is a mobile service app or a marketplace providing direct service in retail delivery, rideshare, food delivery, vacation rental, restaurant delivery, and grocery delivery. This addition to Halen's technology illustrates the company's initiative in building the most advanced all-around mobile service experience for retailers and consumers.

In a digital age where most things are made convenient and formidably on point, a blistering innovation from Halen Technology known as the Halen App comes to clarify the needs of global consumers who find it difficult to get all-around mobile services in one platform. All the features of the Halen App were developed towards one goal – Discover the 21st-century mobile services.

Here are some interesting features of using the Halen App:

Shop by categories, images, and new listings to find the product that's perfect for you

Shop with Halen App Verified Vendors for exclusive apparel and merchandise

Rest easy with their risk-free buyer's guarantee

Instantly chat with sellers and buyers within the app to stay informed about your purchase

Better for drivers – Drivers are kept busies thereby making more money

When asked about the brainchild behind the creation of Halen App in a recent press release interview Edward Mbeche the CEO of Halen Technology commented “We believe that mobile services apps can be done better, that all needed services can be accessed in one place, that drivers can be well-paid and kept busy, and that local communities themselves can enjoy all of the benefits from the apps they do so much to support. To achieve this, we have developed the Halen App, which offers ridesharing, food/retail delivery, and travel bookings in one super high-quality interface. ”.

“Halen App is the future and just the tip of the iceberg to what the future holds for us all. We are here to always provide our community with the best ever technology that will keep them informed. We are so much stronger and united and Halen App does that”, he continued.

Halen App is altering the way consumers pay for everyday purchases and transforming payments in a way never before seen. Halen App will help millions of consumers to save their time and the addition of Halen app will also allow users to experience a seamless transaction for both retailers and consumers, making it the easiest and the most valuable mobile service app."

With the sole goal of transforming and diversifying the way, the world uses mobile services Halen Technology is seeking \$75K funding to support its launch goals. Specifically, funds acquired will be used to:

- Perfect their app software
- Hire early key staff
- Engage in an aggressive marketing campaign to build a brand and recruit initial franchisees
- Supporter's gifts/perks
