

Get through an exciting Haitian Creole with Diferans VetLa and his latest single 'Make It Rain'

Get through an exciting Haitian Creole with Diferans VetLa and his latest single 'Make It Rain'

Randolph, Jul 24, 2021 ([IssueWire.com](https://www.issuewire.com)) - An exotic essence of hip hop music is pouring down from the latest banger 'Make It Rain' dropped by **Diferans VetLa**. The banger is enticing, catchy, and very much enjoyable for its quirky musical arrangement and bilingual lyrical approach. The track has been premiered with an official lyrics video which makes the approach even clearer with English and Haitian verses. The artist has collaborated with Ralpho for this track and they both have complemented each with their deliverance and eclecticism. Both rappers are working under the label of SaPaChaY Records from where the latest track has been released. Diferans is a music producer and rapper there. The artist is recreating the essence of new-age hip-hop music with a hint of native references.

Ricardo Demosthene, better known as **Diferans VetLa** is crafting the best Haitian Creole in the world with his talent, skills, and creativity. He is greatly influenced by Rap, Reggae, and Dancehall artists and as a result, he incorporates different components to his track to make it sound more diverse and rich. He is one of the greatest music artists from Haiti to come up with the creative concept of Creole, where more than one different language is involved together to make a fusion while keeping its musical creativity intact. Diferans has a goal to be the best music producer out there and he is making some significant progress with every release. The latest track '[Make It Rain](#)' is written from a romantic aspect where people only care about attractive and sexy women while the artist wishes for a big and simple girl. There is intimacy, quirk, and the right amount of raw eclecticism which makes this track a masterpiece.

Diferans and Ralpho both are working under the label of SaPaChaY Records where they released many other tracks earlier. Diferans's solo project 'KeLoke' was a great musical hit too. On the other hand, Ralpho released 'RET KONSA NET' collaborating with konsekans. The record label pushes forward the emerging talent in the industry. Currently, this artist is looking forward to crafting more tracks to drop soon. Follow **DiferansVetLa** on YouTube, [Facebook](#), and [Instagram](#) to know more.
