

Global Atherectomy Devices Market Report 2021, Industry Overview, Growth Rate and Forecast 2026

New York, New York City, Jul 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - According to the latest report by IMARC Group, titled “**Atherectomy Devices Market: Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026**”, the [global atherectomy devices market](#) exhibited moderate growth during 2015-2020. Looking forward, IMARC Group expects the market to grow at a CAGR of around 5% during 2021-2026

Atherectomy devices refer to numerous minimally-invasive (MI) instruments utilized for peripheral vascular intervention procedures. The devices re-establish blood flow in the arteries through drilling, grinding, sanding, shaving, and vaporizing plaque, calcifying lesions, and excessive cellular materials. Atherectomy devices comprise of a rotating blade inside a tubular catheter attached to a battery-operated motor that spins the cutter and removes the calcified lesion or plaque. Few most commonly used atherectomy devices are direction, orbital, photo-ablative, rotational, and support atherectomy devices. They are widely adopted across hospitals, surgical centers, and ambulatory care facilities.

We are regularly tracking the direct effect of **COVID-19** on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Market Trends:

The rising incidences of peripheral artery disease (PAD), atherosclerosis, diabetes, obesity, etc., along with the increasing geriatric population are primarily driving the need for atherectomy devices. Moreover, the growing preferences towards minimally-invasive atherectomy surgical procedures with reduced pain and a faster recovery rate are also propelling the market growth. Additionally, several product innovations, such as drug-coated balloons (DCB) that are used in place of permanent implants with directional atherectomy and anti-restenosis therapy (DAART), will continue to drive the market for atherectomy devices in the coming years.

Global Atherectomy Devices Market 2021-2026 Analysis and Segmentation:

Competitive Landscape:

The competitive landscape of the market has been studied in the report with the detailed profiles of the key players operating in the market.

Competitive Landscape Key Player:

- Abbott Laboratories
- Avinger
- Braun Group
- Biomerics
- Biotronik
- Boston Scientific
- R. Bard (BD)
- Cardinal Health
- Koninklijke Philips
- Medtronic
- Minnetronix Inc.
- Straub Medical AG (BD)
- Terumo Corporation

The report has segmented the market on the basis of region, product, application, and end-user.

Breakup by Product:

- Directional Atherectomy Devices
- Orbital Atherectomy Devices
- Photo-Ablative Atherectomy Devices
- Rotational Atherectomy Devices
- Support Devices

Breakup by Application:

- Peripheral Vascular
- Cardiovascular
- Neurovascular

Breakup by End User:

- Hospitals
- Ambulatory Surgery Centers
- Research Laboratories and Academic Institutes

Breakup by Region:

- North America: (United States, Canada)
- Asia Pacific: (China, Japan, India, South Korea, Australia, Indonesia, Others)
- Europe: (Germany, France, United Kingdom, Italy, Spain, Russia, Others)
- Latin America: (Brazil, Mexico, Others)
- The Middle East and Africa

If you want the latest primary and secondary data (2021-2026) with Cost Module, Business Strategy, Distribution Channel, etc. Click request free sample report, a published report will be delivered to you in PDF format via email within 24 to 48 hours of receiving full payment.

Key highlights of the report:

- Market Performance (2015-2020)
- Market Outlook (2021- 2026)
- Porter's Five Forces Analysis
- Market Drivers and Success Factors
- SWOT Analysis
- Value Chain
- Comprehensive Mapping of the Competitive Landscape

If you need specific information that is not currently within the scope of the report, we can provide it to you as a part of the customization

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic, and technological developments for business leaders in pharmaceutical, industrial, and high technology organizations. Market forecasts and industry analysis for biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, nanotechnology, and novel processing methods are at the top of the company's expertise.
