

Handyman Services via the Internet

Fixed.sg

Singapore, Singapore, Jul 9, 2021 ([Issuewire.com](https://www.issuewire.com)) - Fixed.sg Singapore is a facilities maintenance and project contracting company from Singapore and is now making its services more accessible through websites integrated with real-time messaging mobile app and online forms for the convenience of potential customers searching the web for handyman services.

The company's continued efforts to assist property owners in Singapore, by providing reliable and quality handyman services prompted them to come up with strategies to increase web presence.

Their website provides customers with request forms that allow customers to key in relevant information such as contact details and required services as well as a real-time messaging mobile app for instant communications. As a result, the company can easily prioritise each job order and deploy the right team member for the job.

Aside from handyman services, fixed.sg also provides other services including air conditioner maintenance & repair, cleaning services, [electrical services](#), [furniture repairs](#), indoor and outdoor painting, and [plumbing services](#).

Catering to the needs of the entire Singapore, fixed.sg is a team of certified and licensed handymen with over 10 years of experience in both residential and commercial properties. With a set work process that is focused on appointments, punctuality, and keeping clients up to date. Fixed.sg is aiming to set a new standard in the industry. For more details on handyman and other services, go to visit [fixed.sg](#)
