WE WOULD LIKE TO LAUNCH AN EXCITING AND INNOVATIVE INTERNATIONAL CAMPAIGN TO INFORM CHILDREN OF THE MOST IMPORTANT SOCIAL ISSUES AND WE NEED YOUR HELP

Children are the best messengers for good, healthy, healing, learning, exciting and fun campaigns. For this reason, the HOOP Campaign is aimed primarily at children.

The HOOP Campaign will excite and motivate the children in our country and worldwide to accept the social communications messages.

The HOOP Campaign is a new dimension for the informal training and education of social awareness.

The HOOP Campaign is a learning process set apart from the classroom type of environment, to give children the freedom of choice to learn and have fun in their own time and at their own pace.

TO BE PERCEIVED BY THE TARGET AUDIENCE OR PRIMARY TARGET MARKET, THE CHILDREN, AS 90% FUN AND 10% EDUCATION.

The HOOP Campaign is not intended to replace or detract from ongoing formal and informal education activities.

The HOOP Campaign is an incredibly powerful promotional vehicle that will support, supplement and work with these activities to achieve a common goal – make our future more secure.

PARTICIPATION

We would like to partner with everyone who would like to create a better future.

Children are the focus of this campaign.

Their future, education, awareness, and happiness are the driving forces behind the campaign.

A small donation of \$5 will help to create a better world.
