

## “IT IS ALL AROUND US” Shows The Infinite Possibilities Of NFT Artworks In World’s First NFT Museum

Ile-de-France, Gennevilliers, Jul 19, 2021 ([Issuewire.com](https://www.issuewire.com)) - “IT IS ALL AROUND US” Shows The Infinite Possibilities Of NFT Artworks In World’s First NFT Museum

**Artgence** is pleased to announce the exhibition of NFT artworks titled “IT IS ALL AROUND US”. Curated by [Artgence](https://www.artgence.com), this virtual exhibition will be showing digital artworks of 11 talented and promising artists in the field. The exhibition opened to the public on June 17, 2021, and will end on September 17, 2021. The exhibition is held virtually using [Artgence 3D](https://www.artgence3d.com)’s immersive exhibition technology and can be visited by going to the website [itsallaroundus.art](https://itsallaroundus.art)

The excitement of Non-Fungible Tokens (NFT) reached its peak at the beginning of this year. Though the technology itself has been around for many years, the current buzz around it has led many artists to create NFT artworks and collectors to acquire them. This technology has given artists the legitimacy they needed to sell their digital artworks through more traditional auctions and galleries. While its future is not set in stone, there is little doubt within the art world that NFT is the next step in art.

The digital aspect of the NFT can be foreign to many, especially collectors that are much more accustomed to the traditional medium of art. “IT IS ALL AROUND US” aims to lead its visitors on a brief tour of the infinite possibilities of this new exciting technology. The 11 artists showcased in this exhibition represent the variety of ways the digital world can be utilized to create artworks that transcend our physical world. Making use of these infinite possibilities of digital art, the exhibition will evolve in different ways during the period of the show.

“IT IS ALL AROUND US” is the first exhibition of Artgence 3D’s NFT Museum. Merging the traditional

gallery viewing experience with the exhilarating capabilities of digital technology, the NFT Museum elevates the digital art-viewing experience beyond a conventional grid of images on a webpage. Viewers can explore the art hanging within the virtual gallery space to their hearts' desire. No longer are they constrained to the endless scrolling we have come to expect from a digital NFT art exhibition.

"IT IS ALL AROUND US" features works by **Andreas Wannerstedt**, **BE A STEREOTYPE**, **Fernando Magalhães**, **Jan Kaláb**, **Kode A. aka Bosslogic**, **Lethabo Huma**, **Michael Cina**, **Mustafa Sherpidin**, **NastPlas**, **Rolands Zilvinskis**, and **Vratislav Pecka aka PosterLad**.

The virtual exhibition "IT IS ALL AROUND US" is sponsored by **Artgence3D**. **Artgence3D** is a premium virtual 3D gallery experience that expands the possibilities of viewing art beyond physical boundaries. For more information on Artgence3D, visit <https://www.artgence.co/artgence-3d>.
