Join an Unworldly Musical Journey with Sonic Hz and His Amazing Single ‘Outer Ace’

Up-and-coming music producer Sonic Hz is recreating retro synthwave through ‘Outer Space’. The track appears on the album named ‘Sonic Hz’ with nine other tracks.

Moncton, Jul 10, 2021 (Issuewire.com**)** - Creating an eighties-esque electronic soundscape with retro synths, upcoming artist Sonic Hz **is** creating a huge buzz with his track **‘**Outer Ace**’.** The track appears on the artist's namesake album ‘Sonic Hz’. It contains ten amazing tracks that churn out the authentic essence of synthwave and deep grooves. The aforementioned track instantly takes

listeners to an interstellar musical journey with a dreamy sound design. An out-of-the-world composition justifies the title while providing listeners something uniquely refreshing yet nostalgic at the same time. The artist has skillfully crafted this track with intricate details of retro-inspired sythwave. It is a perfect musical treat for everyone.

This talented individual artist is inspired by the retro electronic music scenes based in Moncton, New Brunswick, Canada. With that inspiration, he is creating a new wave in the industry with his individuality and a great sense of original music. He has also released another album named ‘Resurgence’ that consists of nine exquisite singles like, ‘Heartbreak at Club Cosmo’, ‘Wheeler Boulevard’, ‘Darkside’, etc to name some. Another six-track EP named ‘Paradigm’ garnered much attention from the listeners.

The tracks from ‘Sonic Hz’ like, ‘T Minus’, ‘Crossing the Void’, ‘Neonstellar’, ‘Vital Spark’, etc reflect the artist’s creativity and skills of producing. One of the hits among them, **‘Outer Ace’** is being listeners’ favorite for its captivating galactic musical experience. With a determination to create more exciting singles, the artist is already working on his next project. Follow **Sonic Hz** on Spotify**,** Facebook**,** Twitter**,** and Instagram and listen to his amazing music collection.
