

LearningFuze Launches Data Science Program

Designed for students looking to enter the fast growing field of professional Data Science

California, Irvine, Jul 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - LearningFuze (<https://learningfuze.com>) today announced the launch of their full immersion Data Science program starting on May 24th. The program will teach deeply the core data science principles. Students will delve into artificial intelligence, machine learning, and deep learning concepts and will come away from the 12-week program with the professional skills that are key to landing employment in the fast-growing and highly lucrative field.

“Our team noticed a gap in the field of data science training. There are data analytics programs but few that focused on cutting edge data science concepts for those that have determined this is the profession for them,” says Bill Cunningham, Director of Operations at LearningFuze. “We have brought on board an experienced Data Scientist that also has extensive teaching experience so that students learn deeply the data science principles important to being employable in the market.”

Features and benefits of the LearningFuze Data Science Course include:

- Senior Data Scientist & Instructor with 20+ years of experience
- Largest employer network
- Industry leading career services and job search support

Data Science Full Immersion will be available starting May 24th, 2021, at a baseline rate \$12,995 before discounts. For more information on the Data Science 12 Week Full Immersion Course, visit [LearningFuze](https://learningfuze.com).

About LearningFuze : LearningFuze is one of the longest tenured programs in the Southern California marketplace and also one of the highest rated in the nation. The school is well known for teaching software engineering over the course of 7+ years and has graduated hundreds of students over that period of time. The school is bringing their reputation as a high quality program that provides a challenging yet caring educational experience to the world of data science.

Instructor Bio - Zia Khan:

Zia Khan is a Senior Data Scientist and Instructor with 20+ years of experience in the software and information technology field with 5+ years in data science consulting and training. He holds a Bachelor's degree in Mathematics and a Master's in Computer Science and has multiple certifications in Cisco, EMC, Salesforce, Python and more.

Zia has advised and helped customers develop solutions for their business challenges using systems analysis, data analytics, machine learning, natural language processing, and deep learning. He has implemented recommender systems and Natural Language Processing (NLP) projects including chatbots and solutions based on python machine learning libraries i.e. Sklearn, Pandas, Keras, and TensorFlow. He brings his passion for all things data science to LearningFuze and continues to be influential in the marketplace by leading various educational events.
