

Manada Technologies, Inc. (Manada) and Allegro Home Delivery (a division of ACS Logistics)

Enter an Agreement to Provide Final Mile and Mid-mile Solutions for National Contracts

Minnesota, Minneapolis, Jul 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - Manada announced today that it has entered into an agreement to provide final mile services in alignment with Allegro Home Delivery's mid-mile offerings on a national scale. The focus is widespread but will primarily be on the delivery and installation of appliances, fitness equipment, and home furniture. By combining the performance-driven final mile solutions from Manada with the mid-mile support of Allegro Home Delivery, this arrangement provides a true turn-key model for our clients.

About Manada

Manada and its subsidiaries are a leader in providing installation, logistics, and support solutions on a national scale for many of the largest retailers and technology consumer services companies. Manada

operates facilities across the United States and a full suite of back-office services focused on driving performance.

About Allegro Home Delivery

With our focus on your success, Allegro ensures that your customer receives the fastest most courteous service available. Our early notifications and continuous communication reduce anxiety and remorse, as we act as an extension of your service. Retailers, distributors, and manufacturers rely on Allegro to orchestrate the most comprehensive white-glove deliveries with installation, assembly, and WIFI connectivity for all of your internet of things products.
