BUSINESS
WOMEN

Louisiana, Baton Rouge, Jul 26, 2021 (Issuewire.com) - In 2020 over 800,000 businesses were started in the United States and according to Fundera, 40% of US businesses are women-owned. Nadia Francois, mompreneur, and founder of the FemPreneur Society realized that women face a variety of obstacles when it comes to business ownership and a book of affirmation was her answer.

"I pulled together a diverse group of women authors and gleaned from their unique strengths. They shared the powerful affirmations and prayers that helped them stay positive and motivated on their entrepreneurial journey," said Francois.

Twenty-three businesswomen contributed to this devotional, sharing a week of affirmations and motivational prayers.
