

Physician Promise - A Telemedicine Healthcare Platform for Couple's Health & Lifestyle

Physician Promise offers effective and personal care created by expert physicians. Learn about FDA-approved specialty treatments for a number of common health conditions.

New York, New York City, Jul 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Shady Henien is the Co-Founder and CEO of the new startup telemedicine platform, Physician Promise, alongside Anand Narayan who is the Co-Founder and CTO. The platform aims to enhance the lives of patients by providing personalized digital content, free diagnosis, home delivery of treatment, and more.

Physician Promise wants to provide a more comfortable community that allows couples and patients to get help for medical issues that they may be uncomfortable speaking about in a more public setting. The startup provides help for medical conditions such as erectile dysfunction, [performance anxiety](#), hair loss, skin disease, [menopause](#), and more.

The platform offers groundbreaking telemedicine options, especially with health concerns like erectile dysfunction (ED). The company offers a variety of [erectile dysfunction treatment](#) options. With Physician Promise you can buy sildenafil and tadalafil online, which come in gummy form, making it easier than ever to get the help you desire.

In addition to [ED treatment](#) options, Physician Promise offers [treatments for hair loss](#) for men and women. The startup provides male and female hair loss solutions in different forms for those looking for [scalp treatments](#) or alopecia treatments. [Hair loss solutions](#) available include minoxidil, finasteride, biotin, and more.

Physician Promise's newest products are [DNA test kits](#). Unlike many other DNA test kits, they only require an oral saliva swab. Four different options are available for purchase- Platinum, Bronze, Silver, and Gold. These kits provide gene analysis as well as ancestry information, making them one of the best kits to get comprehensive results. Users also get time with a health coach, genetic counselor, and physician afterward to review results.
