His journey of being a musician–

Shashank says that he was interested in music but had never thought of pulling out his passion for music as a Career. He added that, at the beginning of his career, he was largely supported by his friends and college mates. Eventually, they are the only ones who made him realize that he has the potential to attract people's attention to his alluring voice. They also encouraged him to create his own style of music. Shashank chandel entered the world of music back in the year 2012 And from then, his journey, as well as struggle, started hand in the hand with being an independent artist. At the beginning of his career, he used to sing in his college fest and in Interstate competitions and has won many of them. In the consecutive years, he learned to play guitar. He thinks an artist should be enthusiastic and innovative to master his field. He later joined a band named **Madhur band** with some other members as a vocalist and guitarist.
