

Shoessee Aims To Bring Back The Fifties-Style Parisienne Look With Its Womens Wedge Sandals

The fashion trend of the 50s is back, all thanks to the store that has spun a fresh magic to wedges, for customers based globally.

Hong Kong S.A.R., Hong Kong, Jul 23, 2021 ([Issuewire.com](https://www.issuewire.com)) - Shoessee, a pioneer in the online shoe industry has announced its fresh offering for the season- [women's wedge sandals](#). Classic, elegant and chic - the pairs are all about recreating the fifties-style Parisienne look. The store owners have stated that the season sale offer will throw varied discounts on select products for a fortnight only.

With wedges becoming the new style for most women, the company has been procuring different wedge shoes all through the summers. "It is fairly recent that we decided to come out with the bygone Parisienne era since retro and vintage designs form our USP. Also, customers have often expressed comfort in slipping into shoes that reflect the yesteryear appeal and match with modern, daily dresses. The look created is indeed beautiful and the 50s wedges will also help attain the objective," said a senior board member who seems hopeful about the upcoming sale.

Shoessee has decided to keep the pricing decent and in accordance with most buyers' pocket pinch. "We understand wedges are in vogue and barring a few pairs where we can't charge anything less, most others can be availed in quality deals and discounts. This should be good news for fashionistas who put foremost importance to footwear, above everything else," he added.

Alongside the collection of wedges, there are [casual shoes for women](#) available with the retailer too. The company has kept seasonal offers on most of its items and few other deals will also continue when the wedges' sale will be in progress. However, officials have strictly ruled out the possibility of mixing and matching the offers at the time of checking out.

The CEO of the company who was available for comment at the press conference said, "We have high hopes on these wedges. Some of the most reputed brands will be available and customers might even get surprised to see the materials used in shoes. For example, quirky mixes like rope and leather or loud colours in embroidered canvasses will be available for all those who like to take the fashion game to a different level."
