

SpaceDEX is Broadening Industry Leadership Credentials by Crafting IEEE Standards For Blockchain and Cryptocurrency

Caesar Chad, our Senior Technical Advisor at SpaceDEX / Apex Dex, recently played a key role in the development of new IEEE Standards for Blockchain and Cryptocurrency.

Western, Faleniu, Jul 23, 2021 (Issuewire.com) - Caesar Chad, the Senior Technical Advisor at SpaceDEX / Apex Dex, recently played a key role in the development of new IEEE Standards for Blockchain and Cryptocurrency. Caesar Chad served as Vice-Chair of the Cryptocurrency Exchange Working Group and was a key contributor in the Cryptocurrency Payment Working Group as a member of the IEEE Blockchain Standards Committee.

Caesar Chad served as Vice-Chair of the Cryptocurrency Exchange Working Group (IEEE 2140.5-2020), where he contributed to the development of standards such as general requirements for cryptocurrency exchanges, a standard for security management of customer cryptographic assets on cryptocurrency exchanges, a standard for user identification and anti-money laundering on cryptocurrency exchanges, and a standard for distributed/deceitful cryptocurrency exchanges.

Caesar Chad contributed to the development of a standard for cryptocurrency payment performance

measurements and a standard for risk control requirements for cryptocurrency payments as a member of the Cryptocurrency Payment Working Group (IEEE 2143.1-2020).

Caesar Chad, SpaceDEX Senior Technical Advisor said,

“The fact that [SpaceDEX](#) is involved in such a large industry initiative demonstrates the strength and depth of our technical team. As part of a collaborative effort to move the industry forward, I am thrilled to have had the opportunity to share my ideas and skills with other key personalities in the bitcoin and DLT fields. We can speed up the maturing of space by establishing uniform standards and rules, and SpaceDEX looks forward to continuing to make progress in this area.”

Through IEEE, the world’s largest technical professional organization dedicated to promoting technology for the benefit of humanity, the IEEE Standards Association (IEEE SA) is a prominent consensus-building organization that nourishes, develops, and advances global advancements.

The IEEE SA strives to bring together a diverse group of professionals and organizational leaders from several technical fields to build development and collaboration standards. The organization encourages innovation, facilitates the development and expansion of worldwide markets, and aids in the protection of public health and safety. This work contributes to the functionality, capabilities, and interoperability of a variety of products and services that are changing the world.
