Hotmail Account is a great technological asset that provides its users with the best technology to use. Their services are greater than many other online services. But like others, its users encounter some problems that they must solve. Here, the most common is when users cannot get emails on their Hotmail account.

Why is Hotmail not working?

The server is down. Sometimes the server responsible for handling the operation of the Hotmail account does not work. This creates a problem for Hotmail users to get emails on their official accounts.

Similarly, the internet connection problem also creates a problem receiving emails.

Email falling into the trash. Those emails that contain prohibited content or have something that violates the Hotmail usage policy always end up in the spam folder. It is a common reason for creating email get problems.

No storage left. This email account does not offer unlimited space to a user. Therefore, you may not receive any emails in your inbox as there is no space left for any emails to arrive.

The sender is on the blocked list. Sometimes a sender is placed on a blocked list and every time they send an email, it is not delivered to their account.

Email forwarding is activated. There is a good chance that you will not be able to receive the email if your email forwarding is activated. In this case, you must visit the process that is provided for the problem that you create.

Inappropriate settings. Incorrect account settings are also a culprit that causes an email to not be received in your Hotmail email account. Always put your account settings in default mode to get more trouble.

The above are the common reasons why a Hotmail user cannot get the emails on their official account. Resolving them will allow you to solve the Hotmail Not Receiving Emails problem and use this service without problems. You should follow the steps below to troubleshoot receiving emails.

How to fix Hotmail not receiving emails?

Upgrade your Internet connection or upgrade to a better one.

Configure the account settings correctly.

Delete unused and less important emails from your inbox.

Disable email forwarding settings.

Always check your spam folder for missing emails.
