

Women Empowerment Starts from ground level-Nowhera Shaik

Women Empowerment Starts from ground level

Telangana, Hyderabad, Jul 9, 2021 ([Issuewire.com](https://www.issuewire.com)) - Women Empowerment Starts from ground level' – Nowhera Shaik It took her so many days to get the diamond symbol for her party. The All India Mahaila Empowerment Party is just not a political party it is an idea! This idea was created by Nowhera Shaik, one of the most successful female entrepreneurs. Her party was launched after many formalities and when it was launched, the concept was overwhelmingly supported by several famous personalities.

Female discrimination against women, rape culture, domestic violence, and several other shades of oppression has become a daily struggle for women around the country.

Especially our society has always been a cloistered space of patriarchy which has always tried to exert control over independent women. Although Nowhera Shaik has been one of them. She is an independent lady with an independent mindset. She is not ready to give up her ambitions for anything in this world. It was her firm decision that she will educate more and more girl children all across the country
