

Blue Frequency - Open Your Eyes (Indivision Remix)

FULL RELEASE: 1st Oct 2021

England, London, Aug 31, 2021 ([Issuewire.com](https://www.issuewire.com)) - Arriving this October via Ruff DNB is Indivision's remix of 'Open Your Eyes', a remix of the title track of Blue Frequency's *"Open Your Eyes"* EP, which dropped earlier this year via Ruff DNB. Hailing from Tallinn, Estonia, Indivision has been in the drum & bass scene for a decade, releasing music with esteemed labels such as Toolroom, Liquicity, and Beta. Recently, the duo has moved into the record label world with Indivision Music: an imprint focused on helping new artists at the beginning of their careers by offering tips, a place to get heard, and production

advice.

Indivision's take on 'Open Your Eyes' uses the warm mood of the original as its jump-off point, starting out with mellow synths underneath the vocal sample. When the track drops, Indivision manipulates the vocal sample into a glitchy lead line, as driving percussion underneath trades the drum & bass vibe of the original for a laid-back, house music feel. The remix reaches its fever pitch on the second drop, as Indivision lay down a set of soaring melodies and rising drums to create a euphoric soundscape.

'Open Your Eyes' (Indivision Remix) will land on all digital platforms on 1st October.
