

Candice Brady, DO, an Orthopedic Foot & Ankle Surgeon with Coastal Orthopedic & Spine Institute

Get to know Orthopedic Foot & Ankle Surgeon Dr. Candice Brady, who serves patients in California.

New York, New York City, Aug 16, 2021 ([Issuewire.com](https://www.Issuewire.com)) - Dr. Brady is a fellowship-trained

orthopedic foot & ankle surgeon at Coastal Orthopedic & Spine Institute, operating out of the offices in Camarillo and Thousand Oaks, California. She specializes in the diagnosis and treatment of foot and ankle conditions and affiliates with many hospitals in Ventura County.

Utilizing the latest medical technology to provide patients with the best possible outcome, some of her areas of expertise include foot & ankle arthritis, total ankle replacements, foot & ankle fractures, bunions & hammertoes, foot & ankle sports injuries, ankle arthroscopy, flat foot reconstruction, and foot & ankle regenerative medicine. She also runs a Bone Health clinic and will be a 2022 U.S. News & World Report Top Provider for osteoporosis care based on the quality, evidence-based treatment she provides.

After medical school, Dr. Brady completed her residency in orthopedic surgery at Michigan State University. To further pursue her interest in foot and ankle disorders, she was accepted into the highly respected Desert Orthopedic Center Foot & Ankle Surgery Fellowship in Las Vegas, Nevada. While there, she worked with a broad range of patients and conditions from collegiate athletes and professional performers to industrial injuries and age-related conditions.

In good standing with a number of professional organizations, she is an active member of the American Orthopedic Foot & Ankle Society, the American Osteopathic Academy of Orthopedics, the American Academy of Orthopedic Surgeons, the National Osteoporosis Foundation, and the American Society for Bone & Mineral Research.

Orthopedic surgery is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and non-surgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.

Providing expert foot and ankle care, Dr. Brady's research has been published in nationally and internationally recognized journals and textbooks. She has given lectures on treating various foot and ankle conditions, both simple and complex, around the country.
