

## Doobits: the latest interactive NFT collectibles hype

**New York, New York City, Aug 11, 2021 ([Issuewire.com](https://www.issuewire.com))** - Launched less than a week ago, Doobits NFT Collection has **already reached 17 ETH volume** on [OpenSea](https://opensea.io), with more than 800 Doobits adopted by the community. But all collectors who have adopted Doobits do not yet know the true face of their doggy. All Doobits are hidden and will also be revealed according to the roadmap.

Some collectors seem to believe that Doobits has everything to take off because of its new concept. We already can see the power of hype on the secondary market in which some Doobits are being sold at a

much higher price, although they are still hidden. So far the most expensive Doobits ever sold was Doobit #8 and Doobit #2895 both bought for 0.38 ETH in the transactions [0x26f5a61b15700ea54159c6df96d1349b07d08731ba63f10c3c8e266ade4717ed](https://etherscan.io/tx/0x26f5a61b15700ea54159c6df96d1349b07d08731ba63f10c3c8e266ade4717ed) and [0x6f6b7ecca7e9a35e74ada0e00f1fc08cb0c3ce7ef1c31ac73422fd7035f0fa1e](https://etherscan.io/tx/0x6f6b7ecca7e9a35e74ada0e00f1fc08cb0c3ce7ef1c31ac73422fd7035f0fa1e).

Although [Doobits origin story](#) is fictional, it is possible to notice that the creators of the project are very fond of dogs. It's funny and charming the way Doobits was born - you can check it out on their [website](#).

It's also noteworthy that Doobits artist is donating 5% of his revenue from the collection to NGOs that help Dogs.

This project that has just debuted on [OpenSea](#) is already receiving great attention from the community for showing how flexible smart contracts can be, and also bringing together the community itself in a whole new way of having **cryptofun**.

**Doobits is not a game and is not a regular NFT Collection. This path in between may be starting a new hype in the NFT space.**
