

EX FUNDS - Asset management platform with incredible ROI

United Kingdom, London, Aug 2, 2021 (Issuewire.com) - Exfunds.com is an Asset Management platform that offers incredible ROI in 2 investment plans. Ex-Funds have 2 investment plans to choose from EX START 4% daily net profit! (investment range \$10 – \$9999.99) and EX PRO 5% daily net profit! (investment range \$10000 – \$250000).

This platform is offering an unlimited number of deposits in various investment plans. Each of them works as a separate contract for a specific amount of time.

The investment period is 40 days. After the end of the investment plan period, the investor's main capital is returned to the balance and can be withdrawn or reinvested.

Ex-Funds also provides the option to terminate the investment plan AT ANY TIME after the first 24 hours. In this case, a fee of 10% of its value is charged on the deposit, and finally, 90% is released to your balance, where you can easily withdraw.

Ex-Funds also offers us unlimited earning opportunities through its referral program, which pays us an immediate commission for every person we invite.

It creates a structure up to 3 levels down, with a commission of 5% – 2% – 1%.

As for the payouts: they are fast, made 24/7, including all weekends and holidays. So despite the time frame for withdrawals, within 24 hours of a withdrawal request that arrives, definitely much faster. However, please note that the platform owners provide 24 hours as the maximum time to receive your withdrawal.

What can convince us to invest in exfunds.com?

It is a professionally prepared platform, artistry design working on the popular GC script, fully adding a lot of functionality and readability. It provides a professional base of web developers and graphic designers, but above all, a professional approach to the money entrusted by investors. There is no fear that someone will run away with your money for a deposit of 30k or 60k USD ... or more. Such professional teams just never do it, as seen from the payout scale after a few days of operation. Summing up, and can see everything that is done as it should be by a professional legend: unique design, unique programming solutions, efficient cryptocurrency deposit wallets (remaining at the sole disposal of the company, without the participation of third parties), Experts will see the content of the page that was written, not copied from others. Also can be seen by professional hosting on a dedicated server, with one of the best protection against DDOS and other attacks, secure SSL encryption, a unique masked IP address.

[Ex-Funds](https://exfunds.com) is, above all, also always available and willing to help Support, which is also available 24/7 with a waiting time for a reaction of less than a dozen seconds. Added to this is the administration support via email or ticket system. All this makes Ex-Funds the most popular investment program in the market for a reason, and it won't be easy to catch up with anyone. Investors can use Perfect Money as payment to make a deposit in USD or send this value using 11 cryptocurrencies: Bitcoin, Litecoin, Doge, Ethereum, Bitcoin Cash, Dash, Ripple, USDT, Tron, Binance Coin or Stellar.
