

Go Dharmic & Klik2learn Collaborates For Children EdTech Literacy Learning Program

‘Bridging the Covid Learning Gap’- In Gandhinagar, Gujarat, India

Gujarat, Gandhinagar, Aug 11, 2021 ([Issuewire.com](https://www.issuewire.com)) - NGO Go Dharmic has collaborated with tech specialist hub, Klik2learn, to provide a digital English language course program to children at Rantanpur Middle School, Gandhinagar, India. Addressing the digital divide, in education within India, the pilot program utilizes the children's smartphones, to provide teachers and 50 children with licenses from the digital learning hub.

Empowering teachers and students, the full English language course, **Journey 2 Basic Skills**, gives basic literacy and numeracy skills and gives new meaning to refreshing the curriculum. Championing for digital learning, Rapantur Middle School's Principal is an inspiring leader who wants his teaching team and students to excel in life, study, and work. He advocates this program for better sustainability budgets on education.

The program bridges the learning loss and gap the covid pandemic has brought to these children- as lockdowns have prevented children from attending school in India for over one year. Go Dharmic's

project lead, Deependra Bhadourja, and his team will visit the school in the coming weeks for proper orientation and updates of the program with teachers and students.

“Before **Journey 2 English**, no one had attempted to teach complete beginners to read, write and understand English via a mobile phone. We wanted to reach the widest global audience possible so our approach had to be creative – translation was out of the question. Go Dharmic is our ideal partner- supplying that crucial local knowledge, relationships and sharing our vision to improve lives through education.”-**Ann Attridge CEO Klik2learn**

The schools have been closed for over a year, and young children have been impacted greatly. This online intervention & partnership with Klik2learn will enable access to online learning and teach children valuable skills that they would not otherwise access. Therefore, we look forward to reaching as many children as possible and ensure learning never stops”.– **Hanuman Dass, Founder & Chairman of Go Dharmic**

“Klik2learn and Go Dharmic are trying to benefit the students by helping them improve their English language skills- especially those students who earlier were very poor in the subject. In the course of these 3-4 months, students will learn the basics of English (such as how to write, speak and pronounce easily). I really wish that this Klik2learn and Go Dharmic initiative could be applied all around the world in every school to benefit more students!”- **Mahesh Chaudhari, Ratanpur Middle School**

Bringing and creating positive change in lives and communities, Go Dharmic found Klik2learn, as their digital education partner, like compassion and vision to change lives with the highest quality course (which puts teachers at the heart of the solution) was paramount.

Editor's Notes:-

About Go Dharmic:

Go Dharmic is an international charity organisation bringing people together to spread love and compassion through social action campaigns. Inspired by 'Dharma', volunteers from all backgrounds come together to work on projects for the Environment, Food Poverty, Education, Disaster Relief, and much more. Its aim is to bring people together to have 'compassion in action, and is set on the three pillars: compassion, volunteers, and collaborative partners as a driving force to dharma-to 'love all', 'feed all' and 'serve all'.

Throughout the pandemic, Go Dharmic volunteers have distributed over 1 million meals to the homeless, struggling international students, vulnerable school families, and isolated elderly people. They have 10 street food distributions across the UK. Internationally, the charity has served up over 4 million meals worth of food including many disaster relief efforts.
