

Google Apigee Integration Partner SID Global Solutions Named Google Americas Emerging Partner of the Year

Digital Solutions and Services provider and Google Apigee integration partner SIDGS has been recognized as Americas Emerging Partner of the Year by Google.

Pennsylvania, Exton, Aug 9, 2021 ([Issuewire.com](https://www.issuewire.com)) - SID Global Solutions has a history of providing over and beyond the business requirements and has been recognized for its outstanding services on numerous occasions in the past. This time, the recognition was provided by the Business Application Platform, the Google Cloud solution area of which Apigee X is a core part.

Business Application Platform consists of API management, no-code application development, automation, and data insights capabilities. The aim is to enable enterprises to take innovation beyond the realms of IT and accelerate digital transformation. The partners are evaluated based on the completion of various worthy engagements en route to offering Google Cloud services across geographies, sectors, and industries. The award will go a long way in boosting the morale of the company, employees, stakeholders, and partners alike.

The firm has recently collaborated with the Digital Experience Platform provider, [Liferay](#) to bring forth an informational and entertaining webinar session to talk about how to leverage APIs and data to accelerate transformation and innovation. Titled [Turn An Unruly Collection of Assets Into a Smart API Marketplace](#), the webinar will be held on the 1st of September, 2021 from 10 AM to 11 AM CT.

SIDGS is a preferred partner of choice in designing, building, securing, and monetizing the API economy for organizations small or large. It helps customers achieve their API vision by providing them with full lifecycle API management capabilities. The Digital Transformation Solutions provide the perfect mix of capabilities and features to drive and accelerate businesses in the Healthcare, Finance, Banking, Retail, and Utilities sectors.
