Chicago, Aug 4, 2021 ([Issuewire.com](https://www.issuewire.com)) - An invoking freestyle and smooth production have united in the latest single ‘[Pop My Shit](#)’ by [FarrariYanni](#). The rapper has done a wonderful job in creating this banger that is filled with good vibes and an uplifting melody. Bass-heavy grooves and a fast-paced rapping style offer the original essence of new-age hip-hop music. Dicey beats of digital music and the flawless deliverance by the artist make this banger a smooth masterpiece. There are pain-stricken poetic references of life that reflect through the lyricism. However, the ‘go-getter’ attitude of the artist adds a subtle dose of confidence and positive vibes.

Hailing from Chicago, this rapper is spreading his creative aura through his musical representations. He grew up listening to the ‘70s and ‘80s soulful records and developed his passion for music at a

very young age. Nurturing his craft and sense of original music, the artist finally broke through the industry in 2020 with the exquisite bangers namely, 'Doin Me' and 'Keep Smiling'. With his ability to win the listeners' hearts, he is only getting powerful with every release and his prolific musical career is the proof of that.

The latest single '**Pop My Shit**' is just another addition to the musical arsenal which is going big and deadly. The other releases by this artist, like 'Fear God', 'Before the End', 'Help U Get It', etc are the biggest examples of his musical consistency and constantly evolving nature.
