

IdentiSys Partners with OpenEye to Offer a Cloud Video Platform

Minnesota, Eden Prairie, Aug 19, 2021 ([Issuewire.com](https://www.issuewire.com)) - IdentiSys, a local sales and support provider for identification, security, and tracking solutions across the United States has entered a new partnership with OpenEye to offer a cloud video platform.

OpenEye is a cloud-managed video surveillance company combining the performance and reliability of local recording with the convenience and flexibility of the cloud. OpenEye Web Services produce a greater return on investment, saving time, and providing an easier, more secure surveillance solution.

"We are excited for this new partnership with OpenEye," said Michael Shields II, President, and CEO of IdentiSys. "OpenEye's video platform works seamlessly with our existing access control system offerings."

IdentiSys will promote OpenEye's On-Site and Cloud Managed Visitor Management Systems platform, which directly integrates with Galaxy Control Systems, an existing access control partner.

"We are excited to have IdentiSys as a Certified Partner," said Molly Hohn, Business Development Manager for OpenEye. "We have already been working together to provide solutions that answer real customer needs."

The OpenEye platform offers a wide array of perks including cybersecurity, cross-platform software, infinitely scalable, open architecture, and bandwidth efficiency.

About OpenEye

OpenEye is an innovator in the design and development of cloud-managed software solutions for video management, business intelligence, and loss prevention. OpenEye is committed to making it easy, their products are easy to use by focusing on simple yet elegant designs.
