

JustShip launches Green International Shipping Service

Fast growing Singaporean shipping start-up offers carbon-neutral, plastic-free services

JUSTSHIP

Singapore, Singapore, Aug 25, 2021 ([Issuewire.com](https://www.issuewire.com)) - JustShip will offer carbon-neutral shipping and plastic-free packing options for a nominal fee. This will be achieved by partnering with independently verified carbon credit schemes and ethical packaging suppliers.

Fast and reliable couriers have brought our world closer together: orders from overseas online stores only take 2 or 3 days to reach our homes. It is increasingly pertinent for shipping companies to push to the next bound of service while meeting the surge in demand for fast and reliable shipping. JustShip is determined to find solutions to achieve net-zero carbon emissions for their own operations, become a green logistics company, and advocate for a more sustainable future through climate-neutral shipping.

An important first step towards net-zero climate impact is creating carbon-neutral shipping and eco-friendly packing options for users. JustShip measures the amount of carbon generated from your shipment using your parcel's weight and distance traveled. They make sure to account for all emissions generated, from pickup to delivery. Based on this measurement, they partner with the Wren Climate Fund, a carbon offset project, and engage in regenerative agroforestry and provide clean cooking fuel for refugees. These projects finance important "avoided emissions" and "emissions removal" projects. JustShip will also pack your parcel using eco-friendly packaging materials, such as recycled paper fillers. When you choose this sustainable option, you can be assured that your parcel's environmental impact will be fully mitigated. Eco-friendly shipping has never been easier.

JustShip is a fast, affordable, and reliable international courier based in Singapore. They offer live parcel tracking, full insurance options, carbon-neutral logistics, and secure packing services. JustShip delivers your parcel anywhere in the world within 2-4 working days. Get a quote with their rate calculator now!
